

## Ophthalmologist

Palm Beach Veterinary Specialists (PBVS) is seeking a board certified or residency trained Ophthalmologist. Ophthalmology is one of the highest sought out specialties in our region guaranteeing and immediate case load.

With a focus on providing exceptional care to both our patients and their owners, Palm Beach Veterinary Specialists was established in West Palm Beach in 1998 as a solo-specialty practice and has flourished into a busy, multi-disciplinary, specialty-only practice.

We reside within a new, award winning (2015 Hospital of the Year) 34,000 sq. ft. physical plant (operating 24/7/365) that boasts an in-house national reference laboratory and blood bank., MRI, CT, I131, Endoscopy, Ultrasound, ECG, electro diagnostics, a Linear Accelerator, and so much more! As an Ophthalmologist, you will be excited to know, we have a dedicated ophthalmology suite and O.R. We are happy to have the successful candidate help in the decision of the equipment they are most comfortable using. Our advanced-design physical plant and service capability brings a level of sophistication to our practice that is unmatched in south Florida.

The Hospital is also home to the Palm Coast Education Center that includes a 125-seat auditorium, large conference room and meeting hall that are used to provide continuing education programs for veterinarians and paraprofessionals.

Our staff of specialists includes three Surgeons, two Internists, Radiation and Medical Oncologist a Criticalist, and 10 dedicated emergency clinicians. The Chief-of-Staff and hospital owner is a practicing, board certified surgeon/clinician with a commitment to delivering quality and value specialty veterinary medical services. As we continue to recruit specialists, we anticipate adding a neurologist and cardiologist in 2017. We are an integrated practice that utilizes a team approach to case consultation and management, and we employ skilled, cheerful, compassionate, dedicated nurses.

We believe patient outcomes are improved through collaboration. Therefore, the successful candidate is expected to develop professional relationships with and deliver continuing education topics to in-house staff as well as to the local and greater veterinary community. The Ophthalmologist position is full time with ample time off for professional and personal development. The hospital also offers a generous, self-directed benefits plan. This is an excellent opportunity for any clinician to advance a career and work at a level to which you were trained.

West Palm Beach is located on the southeast coast of Florida. The area is blessed with year-round pleasant weather and beautiful beaches. Come live where others vacation. Urban, suburban and rural living all can be enjoyed within close driving distance to the beaches and hospital. If you would like to work in an environment within which you can practice to the highest level of your skills, please contact Dr. Robert Roy ([DrRoy@PalmBeachVetSpecialists.com](mailto:DrRoy@PalmBeachVetSpecialists.com)) or Hospital Administrator, Cheryl Rizzo ([cheryl@PalmBeachVetSpecialists.com](mailto:cheryl@PalmBeachVetSpecialists.com)) via e-mail or call 561-434-5700.
