

July 26, 2017

Dear ACVO,

Jim Clinton was a classmate of mine from 61-65 at the University of PA and he later went on to study ophthalmology under the auspices of Dr. Lionel Rubin. Jim established his practice in new jersey and practiced there for many years (35-40 plus). He has had a number of articles written and published in referred Journals. He has been a sponsor for future residents who have studied under him on a part time basis and was influential in having Stokes pharmacy support the service dog examinations after Merial stopped their support. He worked with northwestern mutual life insurance to have them cover disability insurance for ACVO members. His clients have always respected him and he is the ultimate professional in everything he does. I would recommend him for emeritus without any reservations.

Sincerely,

Seth Koch, VMD, MMSC, ACVO emeritus
