# Life's Short... Work Somewhere Awesome!

## Seeking Ophthalmology Interns . . .

for our Miami and Broward Locations for the 2018 – 2019 internship program. We operate from three Premier Veterinary Specialties (PVS)

locations: Fort Lauderdale, Hollywood & Miami with satellite offices in Coral Springs, South Beach, and West Palm Beach (location TBA).

Our outstanding team consists of three boarded Veterinary Ophthalmologists and two Veterinarians whose practices are limited to Veterinary Ophthalmology. We are also proud to have an Ophthalmology resident and an Ophthalmology intern as a part of our team. Our practices collaborate with other specialty services including dermatology, oncology, and cardiology

Clinical duties will be conducted under direct supervision of boarded ophthalmologists and will include: diagnosing and treating companion animals with ocular disease, primary patient care, and managing inpatients. Our interns work closely with many rescue organizations and perform rounds at the South Florida Wildlife Center. Interns will be expected to assist technicians with patient care and surgical preparation. When scheduled, responsibilities may also include emergency and weekend duties. Interns are expected to provide consultations and contribute to the education of referring doctors and our surrounding general practices. Candidates must be highly motivated and have previously completed a one-year rotating internship or its equivalent in practice experience.

Our Ophthalmology Interns will be expected to fulfill weekly reading requirements, prepare power point lectures for hospital teaching rounds, and attend Grand Rounds at the Bascom Palmer Eye Institute.

### What we offer:

- 7 days for personal time off and continuing education
- 10 days for clinic visits to COPLOW
- Annual Salary of \$27,500
- Medical Benefits, Professional Liability and CE allowance

### Application Process:

Mail or Email the following to [Internship@AnimalEyeGuys.com](mailto:Internship@AnimalEyeGuys.com) by Friday, January 12<sup>th</sup>, 2018.

- Cover letter and two references
- Veterinary school transcript (copy is acceptable)
- Curriculum Vitae
